

VEAC – Vote to End Australian Communities

If you vote yes to VEACs draft proposals you are sentencing townships and communities such as Kerang, Koondrook, Cohuna, Barmah, Nathalia, Picola, and Kyabram to outcomes that are intolerable in modern society.

Look at the faces of some of the 300 plus people in Nathalia at an anti VEAC rally and ask yourself if you would like to force them to suffer a **loss of employment for individuals and their families, poverty and financial hardship, reduced future work opportunities, reduced participation in mainstream community life, strains in family relationships and intergenerational welfare dependency.**

This is an outcome that will be inflicted on these communities if VEAC are allowed to have their draft proposals adopted. (Page 85 of Draft Proposals book)

If you vote in favour of the VEAC proposals you are **Voting to End Australian Communities**
